

## Dr. Morse's Indian Root Pills

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were sold in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to

## THE C. P. R. CIRCLE TOUR

### The Most Majestic Scenery in the World

Banff, the beautiful; Field, the majes-  
tic; Glacier, the majestic; winding  
the Arrow lakes, Nelson, by the lake  
Balfour, on the Kootenay; the Crow  
Nest Pass are some of the points of  
interest to be encountered on the  
tour which the Canadian Pacific Rail-  
way has arranged this summer. For  
the people of the west who want to  
make the circle of the Canadian rock-  
ies, the Arrow and Kootenay lakes.  
This visit to the lower rocky moun-  
tains of British Columbia and the  
Selkirk range can be made at any  
time between June 1 and October 31,  
for specially low fares made by the  
railway, and the tickets allow the  
passenger to stop off at any point al-  
ong the line which may strike his  
or her fancy.

Leaving Calgary, the pride of the  
prairie, the route of the trip, has its  
first stop at Banff. Banff, the beauty  
spot, is the gateway to the Cana-  
dian national park, and is without a

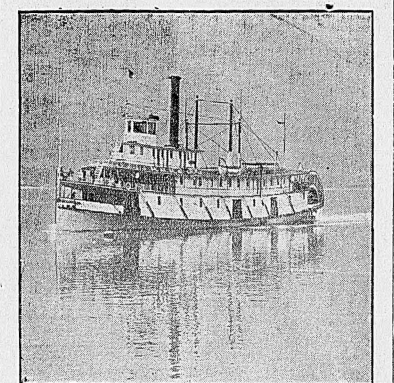

Kootenay Lake Hotel at Balfour, B. C.—a stopping point on the circle  
tour of the Rockies. The Arrow and Kootenay Lakes.

peer on the American continent as a  
holiday resort to please the fisher-  
man, the sportsman, climber and ar-  
tist.

Tourists from all over the world  
seek this country, for the scenery is  
grand. Nowhere may one find in such  
a small area so many points of in-  
terest. All these fascinating spots  
are accessible by good carriage roads  
or horse paths. A short distance  
from the Banff Springs hotel are the  
Bow falls, a cataract of wonderful  
beauty, close by is the tunnel, from  
which a splendid view of Bow  
valley may be seen. There is also  
the Cave and Basin, a remarkable  
formation, from which issue natural  
sulphur springs. Within a radius of  
three miles are the Hoodoos, Stony  
Squaw mountain, the beautiful Ver-  
million lakes, the animals, paddocks,  
the golf links, hot and cold water  
bathing pools, and other attractions  
One of the chief features of the an-

cient pass, a deep canyon between the  
Victoria and Lefroy mountains, O-  
Hara take, set amid surrounding  
wild Alpine grandeur, the Plam-  
Paradise valley, and the Plam-  
lakes, the animals, paddocks, the  
golf links, hot and cold water  
bathing pools, and other attractions  
One of the chief features of the an-

Steamer on the Arrow Lakes which are included in the circle tour  
through the Rockies. The Arrow and Kootenay Lakes.

cient curiosities is the San Juan Can-  
yon, a deep and curious cleft in the  
mountain, where very formation is the  
mysterious. At a distance of nine  
miles lies Lake Minnewanka, a mount-  
ain mirror lake, called from the  
water to a tortoise back. The lake  
is sixteen miles long, with a width  
of from one to two miles. A launch  
takes parties about to various points  
on the margin of the lake.

From Banff to Lake Louise the  
route lies through the Kicking Horse  
pass, and the scenery here is mag-  
nificent. The track reaches the high  
canyons, twisting and squaring like  
an el. Lake Louise station is in  
the middle of the pass, practically  
speaking. Three miles from Lake Lo-  
use station is Lake Louise itself.  
The lake, like all good things, is  
hidden. It is behind the mountains.  
Its picture has been all the maga-  
zine and in every newspaper, for it is  
according to a great man, the pret-

tiest lake in the world. Lake Lo-  
use is the gem for which all the  
great Rocky Mountains are the set-  
ting.  
From Lake Louise (altitude 5,545  
feet) good trails lead to the prin-  
cipal features of interest in the vic-  
inity. It is an easy ascent to Mirror  
Lake (altitude 5,330 feet) and Lake  
Agnes (altitude 5,330 feet), which  
terribly nestle amongst the clouds,  
encircled by majestic peaks. It is  
three miles trip to Saddleback moun-  
tain, which commands an inspiring  
view of the famous Paradise Valley.  
At a distance of about ten miles, the  
Morphe lake, situated at the head  
of the valley of the Ten Peaks, and  
reached over a good carriage road  
recently constructed. Good camp-  
ing facilities are afforded on the shore  
of the lake in the midst of scenic sur-  
roundings of surpassing beauty and  
grandeur. The Victoria glacier, a  
great pulsing of hanging snow, Ab-

Leading from the station a good trail  
follows the turbulent course of the  
Illecillewaet river to the great  
Illecillewaet glacier and valley; other  
trails branch off in all directions,  
inviting and leading the mountain  
climber, explorer and lover of nature  
to scenes of marvellous grandeur and  
enhancing beauty. Glacier crest, Lake  
Martin and Observation point are a-  
mong the shorter and easier ascents.  
Mount Abbott is a day's climb, but  
not a difficult one. From its summit  
an exceptionally fine view is obtain-  
ed of the Canadian valley. Day trail  
also lead up to the summits of Eagle  
peak and Mount Arvalanche. The  
ascent of Mount Sir Donald is more  
difficult, but with the assistance of  
experienced guides may readily be  
accomplished.

An excellent trail leads to the As-  
ulkan glacier, through scenes of Al-  
pine splendor, and the recently dis-  
covered Nakina Caves are only distant  
about seven miles from Glacier house  
by a good horse path. These wonder-  
ful caverns have been formed by the  
action of water for ages upon solid  
rock, and form a series of chambers  
with large entrances, polished rock  
ceilings, and walls which sparkle  
with quartz crystals and reflect the  
rays of miniature lights.  
From Glacier the railroad fol-  
lows the Illecillewaet river valley  
until it reaches Albert canyon. Here  
one hundred and fifty feet below the  
track may be seen the river, boiling  
in the canyon, while the train runs  
along the very brink, as if purpose-  
ly to give the passengers a thrill  
that is not to be experienced any-  
where else.

From the other side of the track  
the cliffs rise to a tremendous height  
above which may be seen the green  
trees waving their branches against  
a blue sky.  
Passing through Albert station the  
train hurries by Twin Butte and then  
into Revelstoke on the Columbia river.  
Here the tour branches from the  
Canadian Pacific main line and goes  
west to Arrowhead.

At Revelstoke there is a magnifi-  
cent view of the Columbia river run-  
ning to the Arrow lakes; its banks  
studded with snow covered peaks  
its tributaries in many cases high  
waterfalls from the sides of the pre-  
cipitous crags.  
At Arrowhead the tourists  
change from train to the river steam-  
er there is the first view of the fa-  
mous winding Arrow Lakes. The  
country around the lakes has often been  
termed the Killarney of British Colum-  
bia, owing to the wonderful re-  
semblance to that beautiful spot in  
Ireland, so famous in history and  
song.

The trip down the upper lake is  
filled with interest. The steamer  
passes by high brown hills, slopes by  
the valleys that run coyly down to  
the water edge to sap up blue  
violet lake, wanders past long broad  
acres of ranches stretched out and  
planted with flowering fruit trees and  
paddies by sleepy little towns that  
lie by the brink of the lake, awaiting  
a railroad or a steamer to bring  
them into life again.

Down the Lower Arrow Lake the  
country is even prettier, for here the  
mountains are more prominent, and  
the sides of the lake are high and  
precipitous. The ranches lie on the  
top of the hills in places slip over  
and find way to the lake by a wharf  
where the steamer stops.

The tour through this country is  
worth while, even more so than the  
tour through the Rockies for it shows  
what a wonderful place the dry belt,  
as it is called in British Columbia,  
really is. Here comes the sick man  
to get well. Here also comes the  
man and woman suffering from over-  
work, to fish, to climb, to loiter and  
rest. This is a dry country and in  
its way is a wonderful place for the  
consumptive, the overworked and the  
tired business man and woman.  
At the lower end of the Lower Ar-  
row lake lies Castlegar and West Ho-  
bson. From here the traveler goes  
by train through South Selkirk, the  
famous mining town and comes to  
Nelson, British Columbia.  
Nelson lies on an arm of the Koo-  
tenay lake. It is a charming little  
city of a population estimated at  
7,600 inhabitants. Close by the city  
lies the famous Bonington falls, a  
roaring waterfall, where some of the

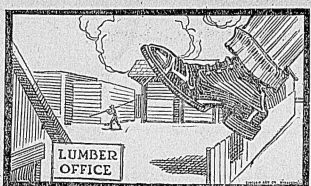

## Remember

whenever you are troubled with minor ailments of the  
digestive organs, that these may soon develop into  
more serious sickness. Your future safety, as well  
as your present comfort may depend on the  
quickness with which you seek a corrective remedy.

By common consent of the legion who have tried them,  
Beecham's Pills are the most reliable of all family medi-  
cines. This standard family remedy tones the stomach,  
stimulates the sluggish liver, regulates inactive bowels,  
Improved digestion, sounder sleep, better looks,  
brighter spirits and greater vitality come after the  
system has been cleared and the blood purified by

## STEP IN OUR YARD

Look around—ask questions—examine our stock—get  
our prices.  
That's the way—the only way—to buy Lumber and  
Building Material.  
We welcome the critical buyer—and above all, the buy-  
er who is posted.  
When we say we are willing to do anything to please  
you, we are only looking after our own interests in the  
future. We don't want to go out of business next year,  
and we should have to, if we didn't treat you fairly  
and squarely, and give you the best for your money.  
Of course we don't claim the earth with a red fence a-  
round it, but we do claim that we can give you the best  
Lumber and Building Material values for your money.

**LACROSSE**

It has been a cause of wonder to many why the Canadian national game, Lacrosse, has never been introduced into this city. The excitement of the game is closely akin to hockey, and the exercise is equally as good. It is much superior to baseball in many respects and has the distinct advantage of being a Canadian game. We think there are several former players in the city, who, if brought together, would form the nucleus of a team. Anyone who has played, or is desirous of learning the game, may receive further information by inquiring of L. Ramsey or C. C. Annett.

### FOUND

I have been informed that some malicious person or persons are telling the people of this district that my prices are exorbitant owing to the fact that I have big expenses. I wish to say that my prices are not based on my expenses. I depend on the volume of business to cover the item. The expenses I have are caused for your benefit, no studio can turn out first class work without these expenses, that is why my photographs are appreciated by everyone who has had work done by me. Before having your Photo taken make an investigation and you will find in my Studio Quality, and my prices are no higher than you will have to pay elsewhere. P. L. Talbot, the Photographer in your town. Pearce St.

### BLINDMAN VALLEY OIL CO. TO COMMENCE DRILLING

Heavy Standard Drilling Outfit Has been Purchased. Will Commence Within Fourteen Days.

We are informed that drilling operations on the Blindman Valley Oil Co.'s claims will be started in real earnest within 14 days. The company have just purchased a complete heavy standard drill and arrangements are being made to secure the services of a well known local driller. The sale of the Company's stock for Edmonton has met with great success and ample money is now in the treasury to prosecute actual operations immediately. We have heard from one of the directors of the Blindman Company that a double shift will be employed from the outset.

"It will only be a matter of weeks," he said, "from the time boring is started, until the oil strata is reached."

The directors of the company are enthusiastic over the prospects of striking oil, since the company has the very pick of locations, being the first on the field. The Heron, Elbow, and others immediately followed but it is not known if any steps have yet been taken in their cases to actually start drilling.

Shares can still be secured at 25c. It has been learned that the intention of the company to advance the price of shares to 50c. or more at the next strike of oil, wherever that may be.

Mrs. A. J. Johnson and family left on Saturday morning for Wetaskiwin, where they will visit her sister, Mrs. J. Calne—Strome Dispatch.

### STIR THE LIVER UP BY THE USE OF

**Milburn's Laxa-Liver Pills**

If the Liver is Lax, Slow or Torpid it is necessary to stimulate it by the use of a medicine that will clean away all the waste and poisonous matter from the system, and prevent as well as cure Constipation, Sick Headache, Bileousness, Jaundice, Stomach, Liver Complaint, and all sickness arising from a disordered condition of the Stomach, Liver and Bowels.

Milburn's Laxa-Liver Pills are a specific for all these troubles, and have been used for close to twenty years by many people for these complaints.

Mr. Thomas Duesing, Waterford, Ont., writes: "I was troubled with my stomach for twenty-five years. I doctored with doctors in Canada and Michigan, but got no relief. There was a friend in Michigan who advised me to try Milburn's Laxa-Liver Pills, and I did so. I now feel like a new man, and I can't praise them enough to my fellow men."

Milburn's Laxa-Liver Pills are 25 cents per box of 30 pills for \$1.00. They are for sale at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

FOR SALE BY H. L. HIGGS.

### ALBERTA GRAIN AND LIVE STOCK REPORT

The department of agriculture has just issued Crops report No. 1, giving the condition of the grain and live stock up to the month of June. The report is as follows:

#### Southern District

After an extremely mild winter the spring opened early under favorable crop conditions. The land was generally in splendid condition for early seeding, and contained more moisture than any preceding year during the past four or five seasons. Seeding commenced early in April and was finished before the first of June. The average under crop in this district shows a slight increase and a marked improvement in cultivation and preparation of the soil, a larger area of summer fallow was available for spring crop than ever before in this district and a noticeable improvement in preparation methods throughout the district. The grain germinated early, although it was somewhat delayed in upward growth on account of lack of rain during the month of May. Ten or fifteen per cent of the crop area has been somewhat damaged on account of the dry weather. Rain fell, however, generally throughout the district early this month, and perhaps in fifty per cent of the district in sufficient amount to insure a good crop. In a large territory, however, insufficient moisture has fallen up to date, and the crop is suffering slightly for want of more moisture.

An increased interest in dairying and the more diversified methods of farming is manifest throughout this district. There is a keen demand for dairy cows, and a number of new creameries are being established.

#### Live Stock

There is a continuation of the movement noted last year for more and better live stock. Winter feeding of steers increased, and a large increase in hogs and sheep are reported from every district.

#### Central District

The season opened under very favorable conditions a little earlier than last year, a somewhat larger area has been seeded, and the outlook is very promising for a splendid crop. A marked improvement in the cultivation and preparation of the soil is a distinguishing characteristic of the district. An increased interest in live stock, particularly in dairying and stock raising, is also evident. Mixed portions where mixed farming operations have long predominated. The hay crop in this district will exceed previous years, and all indications assure a very heavy hay crop and an abundance of feed.

#### Live Stock

An increasing interest in dairying continues throughout the district in live stock. More and better cows are being secured, and a great number have become interested in hogs and sheep. Poultry has also received considerable attention.

#### Northern District

After a mild winter the spring opened early, and seeding commenced under very favorable conditions. Dry weather prevailed throughout May, which retarded the growth of crops somewhat, but during the early part of the present month a large amount of moisture has fallen which insured a bumper crop. The acreage has been greatly increased, mixed farming has become general, the central influx of settlers during the past two years have greatly extended the crop area in all directions. The reports from the Peace River are extremely optimistic. Seeding began early and the weather has been ideal. As predicted last year the acreage of fall wheat shows a decrease throughout the province, and will not be much better than half a crop. The acreage in flax also shows a decrease, which is accounted for by the unsatisfactory prices of last year.

#### Estimated Crop Area, 1914.

Winter Wheat	60,012
Oats	1,379,546
Barley	1,118,115
Hay	\$9,662
Wheat	17,992
Speltz	4,110
Total Crop area 1913	2,739,267
Increase	320,563

#### CALGARIANS FILE ON THE

#### BATTLE RIVER ANTICLINE

The discovery of the Battle River anticline, mentioned by many of the earlier geologists who explored this country, and the locality of which had been somewhat indefinite, has brought about a scramble for oil leases in the vicinity of the Battle River station on the Grand Trunk Pacific south of Wainwright. Probably 100,000 acres have been filed on in this district during the past few days.

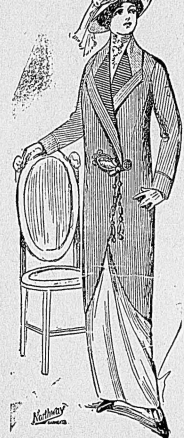

Geologists in the employ of the G. T. P. are believed to have located the anticline, concerning which there has been more or less doubt as to its definite location, and the Grand Trunk with aid in a drilling rig a few miles south of Irma to test out the possibilities of the section. Another drilling outfit at the back of which is an Edmonton syndicate, has been put into commission in the same locality shortly.

The Edmonton locators, have filed on a large tract of land around the Battle River, Birch Lake and Ranby, A. Calgary crowd, eventually acting on information along the same lines as those which prompted the Edmonton locators, have been taking up land east of Castor and south of Wainwright, while others have located a large acreage on the Saskatoon side of the district and to the south of the locality favored by the Calgarians—Alberta.

# THE STAR STORE

Ready-To-Wear, House Furnishings, Millinery, Dressmaking (2nd Floor)

## Suit and Coat Special

There are only 50 of these Suits and Coats and are going to be sold at a big reduction. These are not old stock, all new and most up-to-date styles for this year and you can buy them cheaper than anywhere else. Our window will prove to you our prices and the prices are right.

**DEPUTATION MEETS PREMIER**

A deputation from the union of Alberta municipalities waited upon Premier Sifton on Monday afternoon with regard to financial relationship between the government and the municipalities. P. W. Galbraith, president of the union Red Deer, ex-president P. F. Layton, of Calgary, ex-Mayor William Short and G. J. Kin-naird, of Edmonton, were present.

They stated that the revenue of the municipalities had become decreased by the abolition of income and personal property taxes, and by the reduction of the hospital and insurance commission, the general fund of the government appropriation at the liquor license revenue, a great many of the fines in police cases, a more equitable distribution of the revenue.

In the opinion of J. E. Paynter, chairman of the Saskatchewan health insurance commission, the general insurance throughout the western provinces the past few days have greatly lessened the danger of damage by hail this season.

## Sore Feet

Are your feet hot, sore and blistered? If so, try Zam-Buk. As soon as Zam-Buk is applied it cools and soothes injured, smarting skin and tissue.

Its rich, refined herbal essences penetrate the skin; its antiseptic properties prevent all danger of festering or inflammation from cuts or sores; and its healing essences build up new healthy tissue.

Mothers find it invaluable for baby's sores.

All Druggists and Stores, 50c box.

ZAM-BUK GIVES QUICK RELIEF

## The C. P. R. Circle Tour

(Continued from Page Two)

the tourist or sportsman can enjoy out of door life in his or her own particular way. There are five excellent tennis courts, and the annual tournaments draw visitors from all British Columbia. Fast boats excellently furnished, ply Kootenay lakes and give easy connection with Nelson.

Southward down the lake the land goes from Ballour to Kootenay. Also, the tourists embark on one more on board the train.

The next point of interest along the journey is Cranbrook. Here is a small city that was once an Indian mission. There are interesting things to be seen in Cranbrook as well as in other points in Southern Kootenay.

Among other places where the traveler may stop is Shuswap and visit the famous coal mines. On the way home the traveler passes through the new oil country at Shuswap, Arrow and Kootenay lakes.

Below are the remarkably low fares offered, from a few of the principal places only, but corresponding rates are in effect from all stations in Manitoba, Saskatchewan and Alberta.

From Calgary, circle tour: through Rockies, Arrow and Kootenay lakes, \$25.10; to Vancouver, Victoria, Westminister, Bellaqua, \$47.60.

From Edmonton, circle tour: through Rockies, Arrow and Kootenay lakes, \$28.80; to Vancouver, Victoria, Westminister, Bellaqua, \$44.75.

From Wetskiwin to Seattle, Tacoma, Everett, \$57.10; to Portland, \$53.35.

From Edmonton to Seattle, Tacoma, Everett, \$53.25; to Portland, \$49.75.

CITY OF WETASKIWIN.

SALE OF LANDS IN THE MUNICIPALITY OF WETASKIWIN, AND THE CITY OF WETASKIWIN SCHOOL DISTRICT, FOR ARREARS OF TAXES.

Notice is hereby given that certain lands in the Municipality of Wetskiwin, and the Wetskiwin School District, will be offered for sale for arrears of taxes on Thursday, the 18th day of July, A. D. 1914, at 10 o'clock a.m., in the Council Chamber, City Hall, Wetskiwin.

A full list of said lands may be found in the "Wetskiwin Times" newspaper, published in the City of Wetskiwin, in the issues of May 17, May 14th, May 21st, and May 28th, 1914.

The Secretary-Treasurer will proceed to sell the said lands for taxes on the said day and at the said time and place, unless the arrears for taxes and costs are sooner paid.

E. ROBERTS, Secretary-Treasurer.

## NEARLY 300 MINERS LIVES SNUFFED OUT IN EXPLOSION

Hillcrest, Alberta, June 1.—Out of 2½ strong and rugged men who assembled for work at the Hillcrest mines this morning, 27 met their death in an explosion which leveled the slope in Mine No. 1 a veritable death trap. This small town in the foothills of the Rockies is dazed in its grief and while the town is in mourning, its sorrow is subtle and without any of the outward manifestations so common when tragedy so stupendous strikes at so many homes.

Forty survivors have been brought from the mine mouth. Of these, 13 are injured, many of them grievously and all the expected to recover.

No connected story of the disaster has been obtained, the survivors being so racked by their experiences that they are unable to tell coherently the ghastly experiences of their short stay underground.

The main facts are that two hours after the men had gone to work a terrific explosion occurred and some thirty men who were in the outer workings ran quickly to the open air, their faces begrimed with dust raised by the explosion. The men who heard the dread sound quickly formed themselves into a rescue brigade and with efforts of bringing the bodies to the surface was almost instantly under way.

Shortly afterward those who had been left in the town, 700 feet away, rushed to the mouth of the mine, horror-stricken at the fate their loved ones were facing in the depths below. Even in their grief these vivid and motherly did not hamper in any way the work of the rescuers. Their grief was deep but they were of the mold of heroines.

As the first of the bodies were brought to the surface the grief became more demonstrative; but later on, in the mine wash-house, where the bodies were laid out, all was orderly. The women walked between aisles of the dead, and identification were made quickly until 40 inanimate forms had been claimed by relatives. Some of the bodies were mangled and torn, but in the majority of cases death was due to suffocation.

When the first news of the disaster was received, rescue work was commenced immediately and doctors and nurses were rushed from Pincher Creek, Burnie, Vancouver and Bellevue. The Alberta Province rescuers, No. 1, in charge of D. S. Hyslop and 100 trained men in charge of Superintendent Rogers, reached the scene of the disaster at ten o'clock within three-quarters of an hour of the explosion.

Hillcrest, Alberta, June 19.—In what is perhaps the worst mining disaster that ever occurred in the history of Canada, practically the whole of the male population of this little town was wiped out today. Nearly two hundred homes mourn the loss of father, son or brother, and the women sit sick at bedside and on the neighboring hills watching the gruesome truck loads of dead, begrimed bodies as they are being brought to the surface with monotonous regularity.

The explosive fire-damp has done its treacherous work. Twelve hundred feet down in the bowels of the earth, where men labored day by day for their daily bread, in one brief moment one hundred and ninety-three big husky miners who went to work at 7:30 o'clock this morning were hurled into eternity. Some of them are believed to be beneath tons of coal, some are found with their heads in their hands and others are propped against the walls of the mine, souls in hands, as though ready to resume a fresh day's work. Only forty-one of the shift came out alive.

The town of Hillcrest is just a mining camp and there is no other industry there outside of the mine. From four to six hundred men are employed all the year round. Hillcrest is located just west of the big Frank mountain side which occurred in 1903 and in which 125 perished.

Hillcrest, June 21.—To the sombre setting of a blinding dusty snowstorm which chilled to the marrow, the blossoms of the sad and depressing atmosphere were added to be a heavy grey mist which rolled like a funeral smoke from the thick mountainside the burial of 150 miners who lost their lives in the mine disaster took place this afternoon in the cemetery half a mile northwest of the town.

City vehicles, farmers' wagons, delivery rigs, and other conveyances bore the bodies to the graves. Following in the wake of each wagon were the families and close relatives of each victim. Old women with tear in eye, young women shaven with sadness, children so small that they had to be given the helping hand of their elders to make their way over rough roads to the burying ground, old men, young men and boys, weeping and moaning with sorrow, formed groups of mourners in the sad and most impressive funeral procession ever held in western Canada.

At the head of the mournful cortege were the bellows and the drums and the Crown's Nest Italian band playing the impressive Dead March in "Sail" as the victims of the explosion were carried to the graveyard.

There was not a dry eye among the adult mourners who followed after the death wagon, the sadness of the occasion being even heightened when some child of tender years called the attention of a grief-stricken mother or sister to some trifling occurrence.

At three o'clock the first wagon started the long and solemn procession in the slow march to the graves. The bodies were buried in two big trenches, each 50 yards in length and in some separate graves which had been dug at the request of relatives, who objected to the idea of a general burying of all the remains in the trenches. Sad as the

## WHEN BUYING YEAST INSIST ON HAVING THIS PACKAGE

## DECLINE SUBSTITUTES

other sights in connection with the awful disaster, which seemed to increase in horror and realism as each long day of the searching for and recovering of the bodies of the lost miners was carried on, the funeral was the most heart-rending occurrence connected with the disaster. Here in the long line of mourners was seen the grief of the assembled multitude of broken hearted people. Shuddering sights and harrowing scenes were witnessed every hour as the bodies were brought from the mine and later identified by the relatives as the shrouded forms lay by the score on the floor of the miners' hall. But these pitiful occurrences were individual.

The particularly pathetic figure was that of a woman striding across a coffin in a swoon, clutching a little child to her breast, who stood beside her without the slightest apprehension of what had occurred. Some of the women mourners were so overcome that they could not remain for the march to the cemetery and weak and tottering from the weeping efforts of their great agony, were escorted to their homes by sympathetic friends. There were many in the large assembly who were not bereaved by the disaster, but who gathered in silent sympathy.

Owing to the large number of Italians who were killed, there were more coffins in the Roman Catholic section of the funeral who followed immediately after the bands, than in any other division of the cortege. The next groups came in the order mentioned: Anglican, Baptist, Methodist, Presbyterian, A.F. & A.M., L.O.O.F., and L.O.L. The general arrangements for the funeral were in charge of the Hillcrest local of the United Mine Workers of America.

Hillcrest, June 22.—The latest disaster figures are:

Rescued, 41; Dead, 196; bodies recovered, 155; unknown, 23, unaccounted for, still in mine, 11.

No new theories as to the cause of the explosion have been put forth with the exception of one presented by Pitt Boss Inway of another mine. This man thinks that three explosions occurred, and that the first was caused by gunpowder used in blasting, the charge of gas exploding by concussion rather than ignition. He states that the second charge was set off by the first one, and so on. One of the survivors stated that he heard three distinct explosions, but they were so close together that he could not distinguish any detail.

## THE WAY IT GOES

Most all big men in the land came up from small beginnings; in youth they toiled to beat the band, and win by their own wits. But many of the victors' crowns, their senses seem to wander; they keep sailing dollars down for idle heirs' squander. The self-made man top of ten crises, "My Algonquin dear lad," won't have to bust his books and eyes, and labor like his daddy. So Alky looks upon the victor, and yet a blind old dilly sees no harm in what he's doing. Far better for poor Alky if he had harsher masters who'd make him rise at break of dawn, and earn his own "Fifteen. A lifted idleness and sloth is scorned by men who's sweated, and few will ever get a swath who pampered are and petted. When I hear of gilded youth receiving unearned riches, I say "The lucky lad is he who's digging ditches."—Walt Mason.

## IN THE FINANCIAL FIELD.

While undoubtedly the financial situation has become easier in western Canada, the improvement is not by any means as noticeable as many expected and predicted. Loan companies early in the year had hoped that there would be considerable increase in their business in the late spring and early summer, but that condition of affairs has not yet materialized. "Not only is Old Country capital for investment in farm property rather slow in coming forward, but the applications from the farmers themselves are much less numerous than in previous corresponding seasons. It looks as if the farming communities had made up their minds that they are going to struggle along, as best they can without borrowing any large amounts, and without going in debt in any respect any more than they can help.

This is really tending towards a pity for future trade. The farmers of western Canada are better off today than they have been for a long time. They reduced their indebtedness greatly from the last crop money, and they have been assuming additional obligations very sparingly since, so that, while the circulation of money throughout the country is not very liberal, the people are leading cautiously up to the time when with the next crop money they will be buying for cash the goods they require, instead of paying all the farm proceeds out for old debts.

As the trade is aware, June 4 is one of the special days in the dry-goods and footware trades as far as collections are concerned. It, however, usually takes a couple of weeks to find out the result definitely. This week leading wholesale merchants in Winnipeg said to the Comm. rel that on the day referred to bank paper was met to the extent of about thirty per cent, and this is considered quite satisfactory for the time of the year, and under the conditions generally prevailing. This season in Western Canada. It indicates that there is a better and more confident feeling in business circles all through the country.—Commercial

Red Deer, June 22.—In a stirring discourse on the second coming of Christ to this country, preached to a large company of delegates and members of Adventist churches in the parsonage tent erected in the Seventh-day Adventist encampment in this city. Pastor J. L. Wilson declared that this great event should become so firmly established in the minds of men that their conversion will not be of name or of will, but of the soul coming of Jesus and what it means to the world.

## PAIN NEARLY DROVE HIM MAD

Suffered Horribly Until He Turned To "Fruit-a-lives"

J. A. CORRIVEAU

DEYSDALE, ONT., June 15th, 1913  
"I am a general storekeeper at the above address, and on account of the great good I have experienced from using 'Fruit-a-lives', I recommend them strongly to my customers. They were a great boon to me. I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrible pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain but I took 'Fruit-a-lives' steadily until I was cured. I have gained fifteen pounds since taking 'Fruit-a-lives' and I verily believe they saved me from a disastrous illness."

J. A. CORRIVEAU.  
For Headaches, Neuralgia, Rheumatism and other diseases arising from impure condition of the blood, 'Fruit-a-lives' is invaluable and infallible. 50c a box, 3 for \$2.00, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

## CROP CONDITIONS

### IN CANADA

Ottawa, June 12.—In a bulletin issued today by the Census and Statistics Office preliminary estimates are given of the areas sown to the principal grain crops in Canada as well as reports on their condition according to reports made by crop-reporting correspondents on June 1. The reports show that throughout the Maritime provinces seeding was delayed on account of the lateness of the spring. In Ontario and Quebec the condition of grain is generally satisfactory, notwithstanding a long spell of dry weather; in many places however the meadows are beginning to suffer from the effects of drought. Conditions throughout the west are reported at generally favorable, although rains would be welcome in Manitoba and Southern Alberta. The total area under wheat in Canada is provisionally estimated at 11,292,800, or 185,800 acres more than in 1913. In the three northwest provinces,

Manitoba, Saskatchewan and Alberta, the total wheat area is estimated at 10,347,400 acres as compared with 10,036,000 acres in 1913; that of oats at 6,086,000 acres as compared with 5,732,000 acres in 1913; that of barley at 1,041,000 acres as compared with 1,025,000 acres in 1913. These differences represent increases of 311,400 acres for wheat, 254,000 acres for oats and 16,000 acres for barley, or a total increase of 521,400 acres for the three crops as compared with 1913. The wheat area in Manitoba is somewhat less than last year, viz: 2,788,000 acres as compared with 2,894,000 acres in 1913. In Saskatchewan the area under wheat is 5,848,300 acres as compared with 5,720,000 acres in 1913 and in Alberta it is 1,611,100 acres as against 1,512,000 acres.

On June 1 the condition of field crops, as measured by a standard in which 100 represents the full value was very favorable.

## W. C. T. U.

### VOTE FOR THEM ON ELECTION DAY

E. J. Bragdon.  
Do you see that boy coming down the street  
With ruddy cheeks and eager feet?  
Whistling away as loud as he can.  
Thinking of the day that he'll be a man.  
Strong of limb and clear of eye.  
Hats Off!

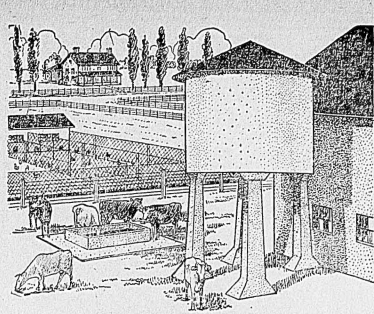

A future statesman is passing by.  
There's a ray of sunlight coming this way.  
Skipping along so light and gay.  
With such a sweet smile on her happy face.  
It would drive the gloom from any place.  
One of God's little led down from the sky.  
Hats Off!

Somebody's darling is passing by.  
The boys and girls that are passing along  
Will soon join the ranks of the grown up throng.  
Give them a fair chance and happy homes.  
But you cannot do it with open saloons.  
What of their future? It's for you to say.  
Hats Off!

And vote for them on Election Day.

Winnipeg, June 15.—The Methodist conference this afternoon recommended to the general conference the advisability of opening the way to men to become ministers of the Methodist church, this being supported by Professor Frank Allen, who stated that the Methodist church might well follow the Roman Catholic church and the Salvation Army in this respect.

Ayer's Sarsaparilla  
Changes tendency toward disease to tendency toward health. No alcohol. Sold for 60 years.  
Ask Your Doctor. Made by J. C. Ayer Co., Lowell, Mass., U.S.A.

## Concrete Tanks and Troughs Never Rot or Leak

THE most practical tanks, whether for water or sewage, are built of concrete. They never rust, rot, dry out or leak. They never need hoops or paint. They last a lifetime and seldom require repainting, which makes them the cheapest tanks that can be built.

Clean, Sanitary Watering Troughs  
are just as necessary as the animals that drink from them. The farmer's best interest are being served when his stock is insured a plentiful supply of clean, clear water from a trough that is permanent and sanitary.

"What the Farmer can do with Concrete" is the name of a handsome free book that tells all about concrete tanks, watering troughs and other uses of concrete that will save every farmer many dollars. Write for it to-day.

The Company control eight petroleum and gas lease holds in the Wetaskiwin district selected by men of most expert knowledge of the business. The largest holders and operators of Calgary have secured leases in nearly all of this district. The best information obtainable warrants us in believing this to be the most favorable oil proposition in the province.

As set forth in the prospectus of the Company, this issue of stock is for the express purpose of developing and operation. An expert oil man with the most modern machinery will be put on the ground at once.

This is a bona fide proposition. The shares are 20c each and we know there will be a big demand for this stock and a rapid increase in the price of same is not improbable. See prospectus for full details. On receipt of application with remittance, certificates with Company's seal will be issued at once.

# PEACE RIVER CROSSING

## The Coming City of the North

Reader! Have you made any money in the last 5 years? If you have, we predict you have made the greater portion through a real estate investment. Are we right? If your financial situation is no better than it was 5 years ago, then you have been pulling the wrong strings and we predict you have not in that time invested in real estate. Are we right? Ex. U. S. President Roosevelt says: "Every person who invests in well selected real estate in a growing community adopts the surest and safest method of becoming independent for real estate is the basis of all wealth." Today the **PEACE RIVER COUNTRY** stands where this country did a few years back. Now, supposing you had invested a few dollars in any one of the leading Cities in this Province what would your investment be worth to-day? You have a friend or a relative living in the city owning a fine home, an automobile and getting all out of life that was intended. Where and how did he start? Are you going to be so comfortably situated in the next few years? You can, if you will but follow his methods and invest a little in real estate. Your chances are just as good to-day at

## PEACE RIVER CROSSING

as there were a few years back in any of the leading Cities in the Province.

# RAILWAY ADDITION

## Adjoining E., D. & B. C. Railway Properties

is so situated, that when **PEACE RIVER CROSSING** has gained that size which its natural position commands, this property will be its centre. **PEACE RIVER CROSSING** is so geographically located, being in the heart of the Peace River Country and on one of the largest rivers in the Dominion of Canada, being the only possible point for the Railways to cross commands **PEACE RIVER CROSSING** to become a Great Railway and Commercial Centre. The Railroad Companies were the first to realize this fact. The Edmonton, Dunvegan & B. C. Railway company have secured nearly 1000 acres of land on the west side of the river at **Peace River Crossing**. The Canadian Northern have also secured land here. People who can see into the future of such a place are the ones who will come out ahead.

## Are You going To Be One To Get in on the Ground Floor?

## ASSIGNEE'S NOTICE.

## PROVINCIAL NEWS

IN THE MATTER OF the Estate of M. S. Johnston & Sons, Merchants of Melville, in the Province of Alberta, Insolvency.

**NOTICE IS HEREBY GIVEN** that the above named Insolvent has made an assignment to me for the benefit of their creditors under "The Assignment Act" being Chapter 6 of the Statutes of Alberta, 1907, and amendments thereto.

The creditors are hereby notified to meet at the offices of Loggie & Manley, Imperial Bank Building, Wetaskiwin, Alberta, on Tuesday, the 30th day of June, 1914, at 10.30 o'clock in the forenoon, for the purpose of receiving a statement of the affairs of the above named Insolvent, for the appointment of Inspectors and the giving of directions with reference to the disposal of the estate.

Every creditor or person claiming to rank on the estate assigned is required to deliver or send post paid a statement of his claim on or before the 29th day of July, 1914, full particulars of his claim verified by statutory declaration and such vouchers as the case admits of, stating whether he holds any security for his claim or any part thereof and putting a specified value on such security, in accordance with the said Act.

And **NOTICE IS HEREBY GIVEN** that after the said 29th day of July, A.D. 1914, I will proceed to distribute the estate of the said Insolvent under the said Act, having regard only to the claims of which I have notice at the time of such distribution.

P.O. Box No. 96 Wetaskiwin

Hillcrest, June 21.—The Hillcrest Collieries Ltd., will have to pay \$1,800 to the families of each of the 151 miners who were killed in the explosion, a total of \$241,500. They are compelled to do this under an insurance clause of the Workmen's Compensation Act. The miners are insured by the company, at no expense to themselves, as the act calls for. While this will naturally be a heavy drain on the finances of the company, it will not retard its development work, as the company has strong financial backing.

Wainwright, Alberta, June 22.—An inquest was held last evening over the body of W. B. Crawford, real estate agent, who disappeared from here on or about May 14, and whose body was found in a disused well on a farm southwest of here on Friday last. The jury returned a verdict that the deceased came to his death by one or more blows on the head. Several parties are under suspicion and are being minutely watched by the authorities.

Ottawa, June 23.—An appropriation of \$50,000 for the relief of the sufferers by the Hillcrest disaster will be made by the government this afternoon. Following the cabinet meeting this afternoon, Sir Robert Borden made this statement. He announced that inquiries were being made by the government here through Senator Loughheed as to the organization of a relief committee, and when this information is received the money will be available. It will be by authority of a governor-general's warrant.

Red Deer, June 20.—Red Deer was kept very busy yesterday, as everyone has been talking nothing but oil and leases. The land office presented a busy scene all day. Tickets were given out for filing up to 800, when they stopped issuing them. The last one to be filed on last night was 218. A great deal of leases were taken up west of here in the Rocky mountains and there is a large demand.

Magrath, Alberta, June 20.—Considerable anxiety is felt among the sheepmen of the south over the scarcity of water on the range. They say it is the driest year in the history of the industry in Alberta. At the big shearing plant, 40 miles east of here, conditions are very critical. Many are perishing of thirst every day. Clipping is being rushed with all speed so that the flocks can be driven to water. About 3,000 are being clipped daily, the clip of which is being shipped to Boston.

## CAMROSE

(From The Canadian)

Born at the Camrose Hospital this morning, to Mr. and Mrs. Geo. Singh, of Perintosh, a son.

Mrs. Hestvedt and child of Wetaskiwin are visiting at the home of Mr. and Mrs. N. N. Gullekson.

M. B. Lippert, a farmer living at New Sarepta, was found dead by his wife a week ago last Monday morning. Mr. Lippert had been well on the previous day but as he seemed better on Monday morning Mrs. Lippert went for a short visit to a neighbor. When she returned home her husband was dead.

Upwards of 1000 outside people attended the Perintosh sports which, with the exception of the last few hours, were held in ideal weather yesterday. The picnic and sports day has developed into an annual affair, and those who attended yesterday report that Perintosh is putting on a better day each succeeding year.

Rev. E. J. John, of Melville, has been appointed successor to the Rev. T. O. Wolf who has resigned the pastory of the Baptist church. Rev. Mr. John, Mrs. John and three children arrived on Tuesday and have taken up residence in the house adjoining the church. Rev. and Mrs. Wolf have decided to do mission work in the province.

The petitions, addressed to the postmaster general protesting against the dismissal of postmaster Foutar, which have been circulated in Camrose and district, and which has been signed by a large number of electors, will be forwarded to Ottawa today. It is not generally believed, however, that the petitions will influence the postmaster general to alter his decision but will serve to show the department the feeling of a large number of patrons of the Camrose post office.

**ALBERTA TOWN**  
**SUFFERS BIG**  
**LOSS BY FIRE**

Carbon, Alberta, June 13.—Practically half the town of Carbon is a mass of blackened ruins as a result of the big fire which started at one o'clock this morning and destroyed six of the biggest business blocks in the town before the flames could be extinguished. After working for four hours the weary townspeople were finally able to get the blaze under control and at five o'clock the danger was past.

The damage is estimated at between \$40,000 and \$50,000 and about \$12,000 is the amount covered by insurance. Citizens fighting the fire in Burnett's hardware store ran a great risk when 50,000 pounds of ammonium exploded, and for some little time kept up a rapid volley, that was heard for miles around.

Carbon is situated about sixty miles northeast of Calgary, and the first news of the big blaze was sent in when the telephone wires, which were burned down during the fire, had to be restrung this morning at seven o'clock.

## Town Topics

Remember the Court of Revision takes place at the court house, on Monday next.

The pupils of Miss Knight gave a most enjoyable recital at the studio on Friday evening last.

\*If you have horses to dispose of see my ad. on front page. Edw. H. O'Brien.

J. Shackville West left on Monday for the coast, where he expects to reside in future. His host of friends join in wishing him all success.

Mr. and Mrs. C. Smith, of the Briard Hotel, celebrated the anniversary of their wedding on Wednesday by taking a trip to Edmonton.

Miss Sullivan left for her former home, Ontario, on Saturday afternoon. She will spend the balance of months in different parts of Ontario.

Mrs. West left the fore part of the week for Brandon, where she will spend the summer with her daughter, Mrs. Donaldson, and with other friends.

Mr. and Mrs. Geo. Woods and family left on Monday for Dakota, owing to the serious illness of the former's father. They will likely remain the greater part of the summer.

Ed. Rule, of Medora, Ill., is visiting his nephew, J. W. Rule at the Pleasant Grove farm, near Millet. He is also facing his farm, in anticipation of locating there next summer.

Rev. A. R. Aldridge, secretary of the temperance and moral reform movement in the province, was in the city this week renewing acquaintances. He was on his way to address meetings in the Wetaskiwin district west.

Rabbi Smith left on Saturday afternoon for Des Moines, Iowa, as a delegate to the annual convention of the Brotherhood of American Yonemen as a representative from the local Home Union. Prior to his return he will visit different parts of the central states.

On Friday evening, June 12, the Y.W.C.T.U. spent a social evening at the home of Mrs. E. Campbell, Annapolis street. Before departing Mrs. Grant, on behalf of the society presented Mrs. Bradley with a cut glass fern jar as a slight token of the society's appreciation of her work as president, and of the goodwill she carries with her as she goes to her new home. That the Y.W.C.T.U. of Wetaskiwin has such a successful year is largely due to the leadership of its president.

Mrs. D. J. McKitterick and family left on the Friday evening train for London, Ont., in answer to a summons to the effect that her father had received a paralytic stroke, and that his condition was very serious. Mrs. D. Macfabe and Mrs. J. H. Kowman and family left on Wednesday morning for the coast, where they will visit for a couple of months with relatives and friends. Mr. Knowman will visit with friends in the east country.

The vote on the school debentures takes place at the city hall tomorrow (Friday) from the hours of ten in the forenoon to four in the afternoon. All tax payers in the public school district are eligible to vote, whether the arrears of taxes are paid or not. Note that the hours of voting are from ten to four, and be sure and exercise your franchise on this occasion, and do your part in assisting to maintain for Wetaskiwin the enviable place she holds in the province as an educational centre. Record your vote in favor of the law.

## Judicial Sale

OF FARM LANDS

Pursuant to judgment and final order for sale in the action of Ross P. Corey vs. Helena Beck there will be offered for sale by public auction subject to the conditions and reservations contained in the order, grant from the crown or in the existing certificate of title, with the approval of a Judge of the District Court of the District of Wetaskiwin, by George L. Owen, Auctioneer, at his auction rooms, in the City of Wetaskiwin, in the Province of Alberta, at 11 o'clock in the forenoon, on Saturday, the 13th day of July, A.D. 1914.

The North West quarter (N.W. 1) of Section Sixteen (16) Township Forty-six (46), Range Twenty-two (22), West of the Fourth Meridian, in the Province of Alberta. The Vendor is informed that the said lands lie about three miles from Gwynne Post Office and about six miles from Bittern Lake, the nearest Railway station, that the soil is level bottom land, and suitable for cultivation, the balance mostly deep hill and about five acres of marketable timber, that the property is well watered but contains no improvements.

The Purchaser is at the time of the sale to pay down a cash deposit of ten per cent of the purchase price to the Vendor's solicitors and the balance is to be paid into Court within sixty days without interest. The sale is subject to a Reserve Bid which has been fixed by a Judge. In all other respects the terms and conditions of sale will be the standing conditions of the Court.

Further particulars can be obtained from Messrs. Hyndman, Hyndman & Matheson, Royal Bank Chambers, Edmonton, Alberta, Solicitors for the Vendor, or from E. D. H. Wilkins, Barrister, in the City of Wetaskiwin, in Alberta, Canada, Agent, "E. E. CHANDLER," 14-21a, Acting C.O.C.

## **Debts and Debtors**

If we give a merchant our custom, we have a right to expect him to advertise—to tell us weekly in the columns of THE TIMES what he has for us. Advertising is shop news, designed to inform us, save our time, and bring to our attention desirable merchandise.

Every retailer who is alive to the interests of his customers has a message—often many messages—for his customers concerning new goods, special offerings, and things that we ought to know about. Customers and non-customers will be attentive and responsive to these messages, if they are delivered every week in the form of advertisements in THE TIMES. The way to get more business is to ask for it.

### **A NOTE TO MERCHANTS**

Would you buy much or regularly from firms that never solicit your trade? Do you not say—"the firm that wants my business must come after it?" Yet some of you say, in effect, to your customers—"We're here. If you want our goods, come and get them. But don't expect us to go after you." It is a poor rule that doesn't work both ways.
